

Facilitation Guide: WHAT IS STUDENTS IN ACTION? Part B

The purpose of this part of this training module is to provide students with an understanding of how they may use service to achieve the goals of SIA and make progress on the 7 goals and 3 Pillars of SIA.

TRAINING OBJECTIVES

- Students see how service projects and activities may be used as a basis for achieving the 7 goals of SIA.
- Students learn about the requirements of the Banner Level SIA competition process and begin to think about how they may prepare for it

TRAINING BEST PRACTICES

Ask students for examples of a service projects they've been involved in organizing or are thinking about organizing. Choose one project to use and flesh it out by asking questions to provide students a clear picture of the details of the event, i.e. Why was this project important, who came up with the idea, what was the vision, what was achieved, how many people came, how was it promoted, etc.

Using the **SIA Written Survey Questions**, lead a discussion about how a service project can be the vehicle to reaching the goals of SIA and participating in the competition process at year-end.

Break the students into smaller groups and divide the questions up. Using the service project example, ask them to come up with ways they might answer the questions. Give them enough time and support them to be creative and thoughtful. Share out from each group. Ask the group for other ideas.
